1.ADD/EDIT EMPLOYEE

Almost all employees are added to this application. If not found, you can add the employee using this page. You can update your data if you want to make changes to your details. To update, the employees will be listed in the grid, load the data by clicking on the row, make appropriate changes and click on the update button. Employees of the same office will be listed in the grid. To add an employee, while typing the pen, showing the existing message and could not found it from the grid, then contact the Admin.

The Add/Edit Employee menu located at the right side of this application and under the Establishment module and Regular Employee HR. In this page you can insert employees and also update details of employees. Employee details are divided into 5 tabs.

- Personal Info
- ◆ Present office Details
- ♦ Qualifications
- ♦ Family Members
- ♦ uploads

1.1 PERSONAL INFO

You can add your personal information here. Mandatory fields are marked with a red star, and others are not mandatory. After filling your details click the button **save and proceed**. If the mandatory fields are not filled in, the field will become red bordered. Upon successful completion it will automatically take you to the next tab 'present office details' or you can click on another tab.
